Popis

Dvouvrstvé skládané ručníky C základní kvality, úsporné řešení pro všechny typy toalet.

Tork Advanced papírové ručníky C (bílá)

Údaje o dodání

Spotřebitelská jednotka

EAN	7322540176957
Kusy	120
Materiál	Banderole
Výška	100 mm
Šířka	100 mm
Délka	248 mm
Objem	2.5 dm ³
Čistá hmotnost	382 g
Hrubá hmotnost	389 g

Paleta

EAN	7322540176995
Kusy	67200
Spotřebitelské balení	560
Výška	1984 mm
Šířka	800 mm
Délka	1200 mm
Objem	1.8 m ³
Čistá hmotnost	213.86 kg
Hrubá hmotnost	232.96 kg

Převážná jednotka

EAN	7322540177008
Kusy	2400
Spotřebitelské balení	20
Materiál	Carton
Výška	262 mm
Šířka	401 mm
Délka	596 mm
Objem	62.6 dm ³
Čistá hmotnost	7.64 kg
Hrubá hmotnost	8.32 kg

Content

Recycled fibres, Chemicals

Material

Recycled fibres Recovered paper can be produced both from collected newsprint, magazines and office waste. The paper is washed with water and treated with chemicals under high temperature and then filtered. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important. The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.
Bleaching of fibres Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety. There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view. The used functional chemicals are: Wet strength agent, Dry strength agent, Dye = if coloured, Fixing agents, Fluorescent whitening agent, Glue = if used. The process chemicals are: Antipitch Protection agent, Yankee coating, Defoamer, Dispersing agents and surfactants, pH and charge control, Retention aids, Broke treatment chemicals, Drainage aid.

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes Environmental label = Ecolabel This product does not have any ecolabel.

Date of issue 2007-11-06

Revision date 2009-07-23

Production

This product is produced at Kostheim mill, Germany, and certified according to ISO 9001:2000, ISO 14001 and EMAS.
